September is Responsible Dog Month!

In addition to keeping dogs healthy and safe, dog owners are also responsible for keeping others and the environment safe from dog waste! GCSD maintains a number of pet stations around El Granada and reminds the community to be sure to bag dog waste and dispose of it in a trash can. According to Flowstobay.org, one gram of dog waste contains 23 million fecal bacteria! To learn more, click [HERE](#). And, if you are out walking your dog and notice that a dog waste station needs our attention, please contact the GCSD office!

Save the Date!

The San Mateo County Harbor District will be holding its annual Boat Lighting event on

December 14th from 4:00-8:00PM. And this year, GCSD will be helping and providing some additional activities! Stay tuned!

A few reminders to help keep our sanitary sewer system and plant running smoothly throughout the year!

Don't...

- divert storm water from downspouts into your sewer lateral. Not only is this prohibited by law, it also increases the burden on our local sewer plant! When the plant treats storm water unnecessarily, it costs all ratepayers!
- pour FOG (fats, oils, greases) down the drain! FOG belongs in a grease bag or an empty can, not in the drain. This simple step can save you money on emergency plumbing calls, and improves the overall efficiency of the sanitary sewer system. Pick up a grease bag at Spangler's or GCSD office!
